5 fun turks & caicos islands facts:

Here are some fun facts about the Turks & Caicos Islands that may surprise and interest you:

1. Our ocean water is surprisingly warm – In the summer, a dip in the surf may feel a lot like taking a warm bath – with ocean water temperatures between 82 to 84 degrees (28-29 degrees Celsius)! The winter water temperature is a bit cooler but still incredibly comfortable, ranging from 74 to 78 degrees (23-26 degrees Celsius).
2. Although the Turks & Caicos Islands are one of the smallest countries in the Caribbean, we boast nearly 400 kilometers of coastline with 230 miles of white sand beaches on 40 islands.
3. Each year from January to March, North Atlantic Humpback whales on their annual birthing migration travel near Providenciales and around Salt Cay, and can be seen and heard all over the Turks & Caicos Islands including right off of Grace Bay Beach.

4. We have our own “Ambassador” dolphin: JoJo is an Atlantic Bottlenose who has visited the crystal clear waters of the Turks & Caicos Islands for thirty years. JoJo is one of a rare handful of dolphins around the world that voluntarily interacts with human beings in the wild. Loved by the islanders and visitors alike, our government has recognized JoJo as a National Treasure.

5. We’re a British territory that uses American currency – Although we are British owned, the currency most commonly used on the islands is the U.S. dollar.
